General PRCHALA

Attached is a self-explanatory memorandum on subject. Concerning paragraph three, we checked our records but find no indication of having received liaison reports on Czech production of jet night fighter planes. Should such reports be received by you in the next few months it is requested that they be called to our attention by WELA.

SUBJECT: General PRCHALA

1. According to a fairly reliable source with good contacts in Soviet and Satellite diplomatic circles in Paris, General PRCHALA is in contact with the British, and is now running operations into Czechoslovakia from the neighborhood of Munich. The same source stated that PRCHALA is also engaged in recruiting former Sudeten Germans in Germany so that in event of war he can form three Czech divisions.

2. Source recently received from an unidentified contact in PRCHALA's group a report containing some rather inaccurate bits of Czech and Hungarian OB, and an unconfirmed, but very interesting, report on Czech production of jet night fighter planes. We would appreciate any evaluation you might be able to give of PRCHALA's intelligence-gathering potentialities, or any confirmation of his connections with the British.

3. For FDW/O: have you received any report from your liaison on Czech production of jet night fighter planes? This report, while unconfirmed, is of sufficient significance that it might well have been passed to you in London if received by a British source. Such duplication would, of course, tend to confirm PRCHALA's alleged contact with the British.
